Without assuming prior legal knowledge, books in the Directions series introduce and guide readers through key points of law and legal debate. Questions, diagrams, and exercises help readers to engage fully with each subject and check their understanding as they progress. This chapter offers some guidance as to how to study effectively and how to approach assessments and exams. It discusses how to manage your time effectively and how to get the most out of criminal law lectures and seminars/workshops. It covers how to deal with multiple choice questions and provides advice on writing assignments (answering problem questions and essay questions is considered separately). It also provides advice on how to prepare for and approach exams.
