7. Secondary Patentability Requirements

This chapter considers the secondary patentability requirements of the European Patent Convention (EPC). It assumes the existence of a subject matter for which a European patent may validly be granted, and focuses on the legal tests for determining its novelty, inventive step, and susceptibility of industrial application in accordance with Articles 54 to 57 EPC and the corresponding provisions of the EU Biotech Directive for biotechnological inventions.
7. Secondary Patentability Requirements
