Without assuming prior legal knowledge, books in the Directions series introduce and guide readers through key points of law and legal debate. Questions, diagrams and exercises help readers to engage fully with each subject and check their understanding as they progress. This chapter focuses on the principles applicable where a contract is entered into after there have been threats or improper influence brought to bear on one party or where the one-sided nature of the contract suggests that one party has been taken advantage of. The discussions cover duress (duress and pressure, threats against the person, threats against goods and economic duress); undue influence (actual undue influence, presumed undue influence and third-party cases); and unfairness and unconscionable bargains.
