This chapter first examines the common law rules regulating the variation of the terms of the contract of employment. It focuses on the situation where the employer seeks to unilaterally modify the terms of the employment contract, for instance in light of modern pressures on management to demand greater labour flexibility in order to adapt to changing market conditions. The chapter then moves on to address the ability of the employer to suspend the contract of employment, for instance where the employer suffers a downturn in demand for its products or services, or where an employee may be subject to disciplinary proceedings. Finally, it considers the future trajectory of the common law content of the personal contract of employment.
7. The Variation and Suspension of the Personal Employment Contract
