Each Concentrate revision guide is packed with essential information, key cases, revision tips, exam Q&As, and more. Concentrates show you what to expect in a law exam, what examiners are looking for, and how to achieve extra marks. This chapter discusses the concept of judicial review. Judicial review allows a High Court judge to examine the lawfulness of decisions made by public bodies carrying out their public functions and enactments where there is no right of appeal or where all avenues of appeal have been exhausted. The defendant must be a public body, the subject matter of a claim must be a public law matter, and the claimant must have the right to claim. This chapter also looks at the basis procedure for judicial review.
