Titles in the Core Text series take the reader straight to the heart of the subject, providing focused, concise, and reliable guides for students at all levels. This chapter examines the applications of the general principles of the offer and the acceptance requirement in the law of contract in two specific problem areas which raise offer and acceptance principles. These issues concern intention to create legal relations and unilateral (or ‘offer and acceptance’) mistake, including the doctrine of non est factum.

Access to the complete content on Law Trove requires a subscription or purchase. Public users are able to search the site and view the abstracts and keywords for each book and chapter without a subscription.
