Concentrate Questions and Answers
Company Law: Law Q&A Revision and Study Guide (3rd edn)
Imogen Moore

Abstract
The Concentrate Questions and Answers series offers the best preparation for tackling exam questions and coursework. Each book includes: typical questions; suggested answers with commentary; illustrative diagrams; guidance on how to develop your answer; key debates; suggestions for further reading; and advice on exams and coursework. Concentrate Q&A Company Law offers expert advice on what to expect from your company law exam and coursework, how best to prepare, and guidance on what examiners are really looking for. Written by an experienced examiner, it provides: reminders of points to consider; indications of key debates for each topic; exam-length suggested answers; clear commentary with each answer; diagram answer plans; cautionary points; tips to make your answer stand out from the crowd; and annotated further reading suggestions at the end of every chapter. The book should help you to: identify typical company law exam questions; structure and write a first-class answer; avoid common mistakes; show the examiner what you know; develop and demonstrate your understanding; identify connections between topics; and find relevant and helpful further reading. As well as separate chapters on exam skills and preparing coursework, it covers: companies and corporate personality; the corporate constitution; shares and shareholders; directors’ duties; company management and governance; minority shareholder
remedies; corporate liability (contracts, torts, and crimes); share capital; loan capital; and corporate insolvency. The book is suitable for undergraduate students taking a module in company law on the LLB and GDL, and undergraduate students studying aspects of company law on other degree courses.

Keywords: company formation, articles of association, corporate personality, veil of incorporation, company contracts, shares, shareholders, directors, directors’ duties, corporate governance, corporate insolvency
